SocialHub - Your intelligent assistant featuring:

Central Smart Inbox

Insightful Monitoring

User Friendly Content Planner

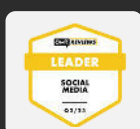

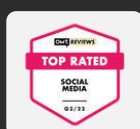

Tools for Teamwork

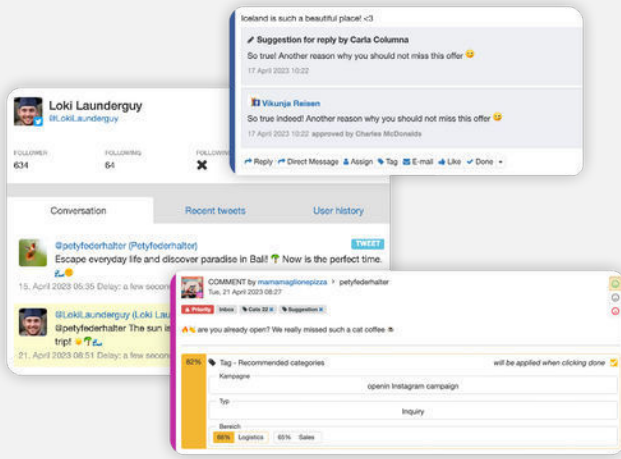

Valuable Analytics & Insights

More Security

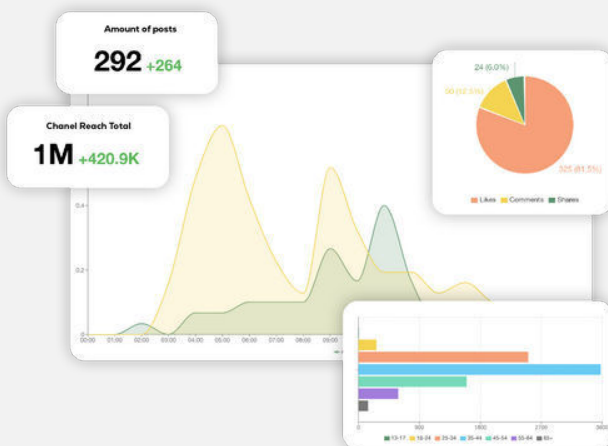

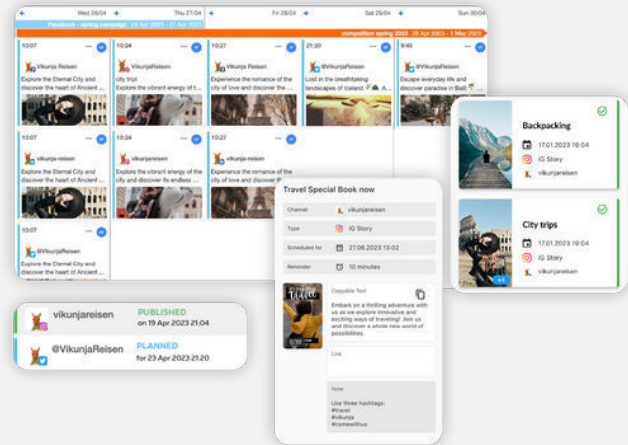

Smart Inbox

- Get the full picture: comments, messages & mentions - all in one place
- Unbeatable as a team: manage requests together & via approval processes
- Save time: automated rules to optimize processes
- Monitor progress: user history, tagging & notes for simplified communication

Content Planner

- Become a content boss: manage your upcoming posts & campaigns
- Keep calm & save time: automate the publication of scheduled posts
- Smooth & hassle-free: create postings & content with your team
- Boost your content: use Facebook ads for more reach

Analytics & Insights

- Full transparency: gain valuable statistics on your content and campaigns
- Achieve goals: use insights to optimize your social media strategy
- Community power: identify the content that truly engages your followers
- Stay up to date: compare your paid & organic posts

hello@socialhub.io

SocialHub:)

Teamwork

- Together: enable smooth collaboration across different departments & locations
- Duplicate work: nope, thanks to a real-time overview & assignments to colleagues
- Better safe than sorry: avoid errors & mistakes through approval processes
- Measure & increase success: get an overview of team performance

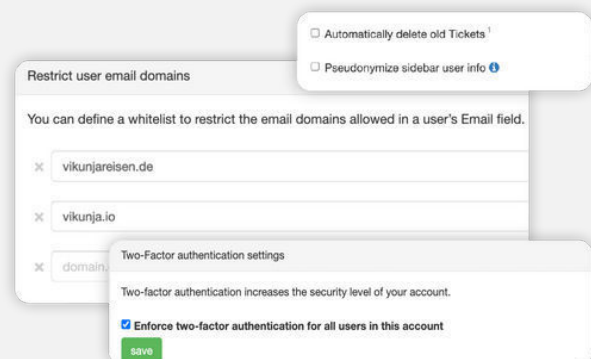

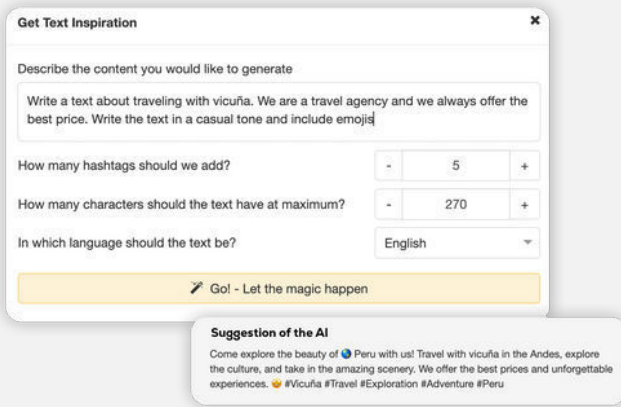

Monitoring

- Real-time monitoring: get results on company terms, topics & keywords
- Spotlight on: identify relevant posts on social media, blogs & forums
- Details at a glance: monitor keywords, mentions & specific hashtags
- Show your best side: respond proactively to online conversations

Security in the SocialHub

- Privacy First: GDPR & BDSG compliant, ISO 27001 certified & hosted on German servers
- For VIPs only: use two-factor authentication & employee access controls through IP range filters
- Establish erasure routines to eliminate personal data issues

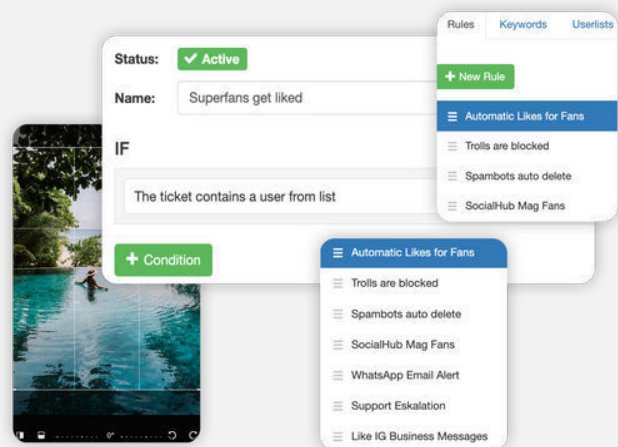

SocialHub AI

Enhance your daily work with the Socialhub AI! Experience personalized assistance as it adapts to your needs, automating sentiments, categories, and actionable suggestions for efficient ticket processing. Unlock the power of captions, hashtag suggestions, and translations within the Content Planner. Boost your productivity and streamline your workflow with ease!

Other cool Features

- Everything in one place: save your assets in the media library
- With style: edit your graphics directly in the image editor
- Find everything in seconds: tag & categorize your tickets & postings
- Work smart, not hard: use smart rules to work more efficiently

...and much more!

#teamwork: We got your back!

By choosing us, you gain more than just innovative software - you also gain access to a knowledgeable and skilled team that provides ongoing support and expertise.

Our support is available to you at any time via an emergency number. You'll have a personal contact person and our Facebook user group to access the information and assistance you need when you need it. As the icing on the cake, you get our SocialHub Mag, packed with cool content - for free, of course!

At our core, we strongly believe that work should be an enjoyable experience. Let's join forces and demonstrate together that this belief holds true. Let's rock and have a great time collaborating!
